Sessies exporteren

Via **Laadpaal** > **Oplaadsessies** > **Sessies exporteren** kan je de oplaadsessies exporteren naar een xls bestand. Je krijgt een dialoog te zien waar je kan de **laadpaal** of **installatie** **1** en de **periode** **2** kan selecteren en vervolgens het **Rapport aanvragen** **3**.

Het bestand zal op de achtergrond gemaakt worden.

The screenshot shows the JULUX web application interface. The main content area displays a list of charging sessions under the heading 'Oplaadessies'. Each session entry includes the vehicle name, start and end times, and energy consumption. A notification pop-up is visible in the top right corner, containing a download link and a 'Show all notifications' button. Red arrows labeled '1' and '2' point to the notification area.
